

Messages for the February 2011 Full Moon

This is Carolyn Evers, and as it is our habit or procedure, we bring forth messages from the Heavenly Hosts with regards to the Full Moon, which is what we are discussing today, and solstices, equinoxes, other moments in history where there have been great energies coming to the planet; and this particular Full Moon, there are new energies coming to the planet that are being reinforced and so we have one coming forth to talk about that, and that is Jeshua, and Richard will bring forth his message.

And Jeshua is here, and he is saying;

The energies coming with this Full Moon are unparalleled in their direction, intention and power. There have been many events where energies have come forth supporting the rejuvenation process, and I have discussed these on many a time; however what is happening on this occasion is unparalleled. It has not been discussed or telegraphed, however the energies which are beginning almost as we speak, given this is the 14th and will begin in earnest tomorrow, are such that they do not leave open any gap for the coming forth of the process of rejuvenation. By that I mean any interference that might remain in any form will be completely eliminated by these energies, and these energies will bring forth the rejuvenation process that has been so long delayed and interfered with.

These energies are uncompromising, and in a sense they begin with those energies that are currently on their way to your planet from the sunspot that has sent an M-Class flare in your direction, and those energies will arrive upon the planet on the 15th which is tomorrow; and these energies are irresistible.

EARTH-DIRECTED SOLAR FLARE: On Feb. 13th at 1738 UT, sunspot 1158 unleashed the strongest solar flare of the year so far, an **M6.6**-category blast. NASA's Solar Dynamics Observatory recorded an intense flash of extreme ultraviolet radiation, circled below:

The eruption produced a loud blast of radio waves heard in shortwave receivers around the dayside of our planet. In New Mexico, amateur radio astronomer Thomas Ashcraft recorded [these sounds](#) at 19 to 21 MHz. "This was some of the strongest radio bursting of the new solar cycle," he says. "What a great solar day."

This was followed 2 days later by an X-Class (more powerful) flare, also directed to Earth

They will complete the clearing as I said, of any remaining interference that might exist anywhere. It might seem strange to you that energies coming to planet Earth could impact what unfolds, what gets exposed if you will, anywhere else within Creation, indeed within Consciousness and beyond. But that is the nature of things and it is hard as I say, to imagine that from within the context of the human experience upon your planet. But that, my friends is what is happening. Make no mistake about it, that is what is happening and you will see these changes come forth over the next few days. And so it is.

Carolyn - Thank you, Richard for bringing forth Jeshua's message. And now, the one that I see that comes into my awareness is Mother God. She shows herself to me something like the god Janus of the Romans, where there were two faces, a face on either side; one face is the face of this young maiden and on the other side is the face of great wisdom. Not exactly a crone, but certainly an older woman who had gained much experience and wisdom in her many, many experiences, revelations, understandings as Mother God.

The God Janus

Her knowledge has grown, the same as everyone's knowledge has grown. She didn't come into existence with all that she holds now in her soul. She wasn't exactly a white slate so to speak, an empty chalkboard. There was a great deal of knowledge, a great deal of understanding because that is how she came into existence. But she witnessed the evolution, the expansion, the understanding of the many long ages of Brahma, and what had been accomplished in each age of Brahma; and she saw all that this age of Brahma held in its expanse, in its going forth, and she kept that all within her heart. That is what belongs to that side, that face so to speak, of the crone

And then what is on the other side, the side of the maiden; she is the young maiden, full of enthusiasm as this beautiful being, because it is something new, it is something exquisite, it is something novel. It is the first time that this is happening among the human race, and in that first time there is this breath of youth, this expectation, this looking forward, anticipation of the joy that will be contained in the human frame. The human body is so different from the spiritual body.

The human body holds all of the elements of emotions, emotions far expanding those that are held on the spiritual plane. It is the body where all knowledge can be ascertained, can be stored, can be evaluated. It is the human body that offers opportunities that will take a very long time to come forth in spirit. This truly is bringing down Heaven upon Earth, and it is the human physical frame, the human body that allows Heaven, this energy of love to be brought down into the denser levels of Earth and the other planets, other places in the

entire cosmos that can only be interacted with the physical form. That is why there is this youth and vitality of that part of Mother God that expresses herself as the maiden; the maiden full of hope, full of love, full of the blessings that only she can give forth in the form of the divine feminine. And it is that expression of this love, this ability that comes forth in the physical human frame, in the energies, in the exquisite reflection of the divine feminine.

For too long, humanity has understood the warrior path, the masculine warrior path that can obliterate all elements of their enemies. But it is the love of the divine feminine that melts the heart of all obstacles that can be held between two individuals; and it is that, it is that that comes forth in rejuvenation. It is a completely new picture of perfection on so many levels that the Earth has not seen; and it is the moment where the youthful figure of the Mother God bringing forth, shining through the face of the maiden, an expectation and awaiting the joy of this new life. And so it is.
