

The Recent Solar Eclipse

=====

What is the spiritual significance of the recent solar eclipse if any?

There is great significance to this solar eclipse, some spiritual and some not so spiritual. From the spiritual perspective it opened a doorway to more of the energies that are coming from the Supernova 1987a. These energies were waiting for this opening. You might say that it acts as an announcement as the rarity of the eclipse causes humanity to pause and consider the action of the sun and the moon.

The Egyptians understood the moon to be feminine and as a feminine influence it was associated with silver. The sun was considered masculine and as such was connected to the element of gold. From the point of view of stones found in the Earth, the feminine aspect is found in working with the moonstone and the masculine aspect is found working with the bloodstone.

This is important to understand as there is truth in these concepts and when either the moon or sun is in shadow, the element in shadow recedes in its abilities and since the sun was in shadow, this makes way for the higher aspect of the moon which in this case is the feminine aspect.

The mind does not register this truth, but the soul does indeed understand this spiritual significance. This date of August 1, 2008 opens the doorway to the goddess energy. While it is true that there are other planetary movements that emphasize the work of the goddess, it is this eclipse that reminds the soul to awaken to this new page in history so to say.

Whether you are aware of it or not, you have been waiting for this invitation to walk within the goddess energy. Subconsciously, you now understand this. You were programmed before you came into this incarnation, that this event would be a reminder that this new age of enlightenment is now upon you in its full power and movement of energy.

We believe that this will act as a subconscious reminder at first and those who are sensitive to the promptings of spirit will feel this energy before the rest of humanity. There are leaders who are out in front of this movement working with this spiritual attunement. This is the beginning of a new day in spiritual advancement.

The recent Earth changes are reminders also, but the memory of those changes from the point of view of remembering what you were given before you incarnated, engenders emotions of fear mostly. This solar eclipse is a reminder of what lays before you by way of spiritual abilities that will be remembered!

As they say, there is nothing new under the sun and that is true. There have been other moments in Earth history when humanity was more advanced spiritually than they are now. You worked with your spiritual gifts and then you forgot them. This eclipse is a cosmic announcement that the memory of these spiritual gifts is soon to be remembered.
