Subject: [floweringconsciousness] COMMENTS ON NEW METATRON WEB SITE & BLOSSOM

Hi Richard and All,

I do not get a good feeling (yet) on this new Metatron Newsletter website, since it "proclaims" - "I have come to change the problems of the world"

when other sources keep saying "we must do this" - by changing ourselves, however this is a joint Light Work and yes Metatron proclaims he needs our help.

Didn't Jesus say, "I come not to change the world"?

I also do not believe that Blossoms predictions were created by the dark. Humanity Consciousness is reported to be a "great experiment" by the Pleiadians and the Master Teachings - and of course Free Will goes with this. Other sources are saying that due to her many reports and prediction that - **JUST BECAUSE OF THE FAILED SIGHTINGS** of OCT 14TH - our frequencies and those of earth were raised MORE ! And just look at **ALL THE ATTENTION THIS SO CALLED FAILED REPORT RECEIVED**. I can not think of Blossoms messages as negative, but were used in a positive way to uplift the collective during her whole period of messages and in the long run. Yes, there are those who have reacted most negatively, but that is their darkness reacting. Every great event including her messages has huge impact upon the collective and personally, which, then the GF can make their assessments of our collective expansions. Remember, everything is a game here on Earth. Blossoms messages were something that amalgamated our hearts and minds to the **EVENTUAL/FINAL COMING**. And **THEY WILL COME** since "they" have been here forever anyway ! ! (gg) Is not LOVE the great healer?? How can anyone listening/**WATCHING** Blossoms messages not be of LOVE? At this point, I accept that "she is of good heart" - Again - **DISCERNMENT** is the final end. Much love and Light Always

Love, Peace, Blessings and Light BE for all, Firelight

"I want you to know that I am aware that I was fooled by the false prediction. I want you also to know that I make a distinction between that false prediction and ***Blossom's innocent role in it. Blossom was as much fooled as the rest of us and she did as much due diligence on her part as she could*** - certainly as much as I did and I have been trained to assess credibility." From Steve

Dear Knowledge,

I felt your question to be an important one, so rather than answer it myself, I referred it to Carolyn Evers who is channelling Archangel Metatron in this work. It seems Archangel Metatron agreed with my assessment as he chose to answer the question in some detail. I have included his response below. It will also be included in the next newsletter.

This is the heading in question on the website.

“I have come to change the problems of the world by shedding more light and understanding to these conditions, but I need your help.” Archangel Metatron

Metatron's answer:

There seems to be some interpretation to my words other than what I said and how the words are used in the context of what was said. While it is true that if everyone changed themselves, eventually the world would be changed also because more light would come to the world and eventually problems would be resolved.

This misunderstanding of interpretation comes about because people have not read the entire message. If one read the entire message on the website there would be no conflict with my words.

The dark challenges the light. Of this I think you would agree. This challenge presents a struggle between the two forces. During this struggle there is much suffering by innocents. My intent is to prevent as much suffering as possible among the people of the world.

The struggle has intensified because the dark is threatened presently and they are placing all their reserves in their forces to control. In this respect, the status quo has changed. Presently there is not enough light being reflected from the grid system to dissolve the actions of the dark. The grid system grows in light as individuals become more light focused. It is the light from the grid system reflected upon the Earth that changes events upon the planet.

Therefore there must be a short cut put in place to meet these forces with enough energy to dissolve the dark residue that has formed over such areas in the world as the Middle East, Africa, and parts of the United States to name a few locations. There is no place in the world presently that is free of this dark residue and this is growing.

It is for this very reason that the residue is growing that I have formed this website. ***The short cut is the conference calls.*** If a group of lightworkers would work with me focusing the light, which is God's energy, to the parts of the world where this dark residue is growing, then it can be dissolved and the suffering of the world could be shortened.

If anyone believes that the light is growing then they are misled. Only search the news reports and read about the suffering in Africa where people cannot afford to purchase food and many are starving to death. This is a great tragedy. The soul, which was created in the image of its Maker, and which has embodied in a physical vehicle, a sacred temple, is being deprived of expressing its mission because the body cannot support the soul any longer. Many will be transitioning to the other side in great numbers rather than participate in the greatest spiritual revolution

before you while waiting for you to change yourself. They are being denied fulfilling their mission for which they originally came.

Need I delineate the suffering in Iraq? The numbers of dead, dying, and suffering are too large to count. Because you are not privy to information coming forth from Georgia, Russia or the agony of those beautiful women in Africa who are being raped and humiliated because of tribal membership or simply because they are female, you do not see the need to cut through the dark and free people from unnecessary suffering.

Humanity was intended to walk in dignity, to enjoy the God-given freedom to find happiness in their spiritual walk towards enlightenment. But this is not happening because all around the world the dark wishes to control every waking event in human events to spew their hatred and control all the money that people can produce with their labors.

I find it sad to see those who proclaim themselves lightworkers instead of working to alleviate such suffering, find judgment in words because they do not meet their *preconceived definitions* of what the *light* means.

Understand that it is not the writer of the website who has placed those words upon its pages, but rather it is I, *Archangel Metatron* who has written these words. I suggest that in a quiet moment you read the words which were placed there and meditate upon the meaning of the words. Then consider joining us in the conference calls to help me as I bring forth the light of God to the conference calls.

Those who are on the conference call will then use the light of God that I will bring and then add their individual soul signature to this light. It will be your intent along with my authority which will act as arrows of light and love to be sent to these troubled places in the world to bring forth the intended changes set up for each conference call.

If you could help alleviate the suffering of millions of people for one day, would you join us? If you could help alleviate the suffering of millions of people for one day, would you want to stop to be critical of the wording of the message because it might not fit into your preconceived belief of what a light worker should or should not do?

This is what I am about; defining problems and setting up forces that will change the problems by bringing more light and understanding to these conditions. Join us.

Archangel Metatron.
