

## **Amazing results are flowing from our healing work**

August 26, 2009

Carolyn Evers and I have begun to see some truly extraordinary healing results from our work with the Healing Panel – [www.AngelicMessenger.com](http://www.AngelicMessenger.com). The focus of the healing is the underlying spiritual issues.

Humanity, by and large, has forgotten that illness and disease is there as a pointer to underlying karmic energies and patterns that need to be cleared and healed and when you do, the body will heal itself. It is how Jeshua healed 2,000 years ago and we are bringing this back.

The first step is for us to use these skills to heal. When we have a track record that stands up to scrutiny, we will begin to teach others.

Below is a series of messages from a woman with whom we have used these techniques. They speak for themselves – and this is not an isolated story. There are others and there will be many more.

### **August 23<sup>rd</sup>**

**It's been just under 40 hours ago that yourself (Carolyn), Richard & I embarked on a new life for me - I'm being urged to give you an update already.**

**When my healing session had ended, I pictured myself as Julie Andrews in the Sound of Music - All I wanted to do is run from hilltop to hilltop shouting how wonderful I felt - How free I felt and how happy I was -**

**As you know I send Pink Roses to every one - Well that day I had gone to my naturopath to have my shoulder worked on - On the way home I stopped to pick up a few things at the store - While I was in line to check out, out of the corner of my eye I spotted a display of roses - There was one beautiful bunch of pink roses in the whole display - Of course, I had to have them - That night my husband told me that they were for me because he was so proud of me - What a wonderful thing for him to do for me - They were right here during my healing that night and still are on my desk -**

**That night I had the best sleep in a long, long time - When I did awake, I just asked him to sing me a lullaby so I could fall back to sleep - I was almost asleep before I could get the words out of my mouth -**

**This morning, before I got out of bed I called in Mother Mary as I had a few questions for her - As soon as I started to ask my question, I started to cry - All I**

knew was that I wanted Mother Mary, whom I consider my mother, to hold me and comfort me - I needed to feel her love for me - I needed her to comfort me - Then I explained to Rose, my inner child, that even I sometimes need hugs from my mother just like she needs hugs from me -

I've already transcribed Friday evening's healing - I was urged to transcribe it right away - It was almost as if someone was standing guard at my door - Every time I got up to stretch, I felt as if I was being told that it was important that I get the transcribing done -

If you recall, my hand did a lot of shaking as my soul was letting us know I was on the right track - It would shake whenever Richard and I would say our prayer together - That was pale in comparison to the shaking that overtook me when you and I were working together on my first lifetime - When we went back to that timeframe, I could not control my hand or the phone - The shaking was out of my control, completely - I was so concerned that I would either drop the phone or miss something you were conveying to me - My soul made sure that at least the earpiece stayed put, sort of - I was blown away, astounded by how strong the shaking was - My hand was flying all over the place -

The day of the healing, my body told me that I no longer had a need for the 3 different kinds of pain meds I was taking - I'm very glad for that, as I don't like putting that stuff in my body - As for my shoulder, I believe I have seen some improvement - When I fell, the doctors told me that it looked like a bomb had gone off in my shoulder - They also told me that my surgery was for pain relief only, that they held out no hope of my regaining much of my mobility - I've been in physical therapy for the past 7 months - The first 5 months, I went to therapy 3 times a week - The past 2 months, I have been going only 2 times a week - I now am going once a week - At this time I have already far surpassed my doctor's prognosis - I can almost lift my arm to shoulder level - It takes a lot of work on my part, but I can do it - I see myself regaining all of my mobility, on the horizon - The day I am able to punch the sky with my right hand, I'm sure you'll probably hear me all the way in Australia shouting for joy -

Just felt a strong urging to send you this update -  
I am forever grateful for the wonderful work that you and Richard are doing - I and everyone else are so very blessed to have found you -  
Light, Love, Blessings and Healing

Then later that day...

ps. the next thing I intend to do is to answer and talk on the phone using my left ear - I haven't been able to do that in about 17 years - Ever since I had a tumour that was larger than a golf ball in size removed from my Parotid gland at the base of my left ear - This is tomorrows plan -

August 24<sup>th</sup>

I knew I'd forget to tell you something -

Yesterday, I had told Richard that I intended to use my left ear today when using the phone - I haven't used my left ear in almost 17 years when I use the phone - Just putting the phone to my ear felt weird - I can't quite explain the sensations that would evolve when I placed it there - It was uncomfortable to say the least - I had told Richard that 17 years ago, I had a tumour removed from my Parotid gland at the base of my ear - Ever since then, the left ear has been very sensitive to the cold, to sound, to everything -

On Friday evening, if you recall, Mother Mary used green healing vibrations to clear my ear and to heal it -

This morning I had to call my dentist and another hill conquered !!!! I was able to use my left ear for the first time in 17 years - It still feels a little tingly - But what I'm feeling is that it's more of a brain memory sensor than something to do with my ear. -

Now that I have transcribed my healing from the Panel, I'm going to use what Mother Mary had suggested that I say with regards to receiving my hearing back - This is why I was so strongly urged to transcribe the download so quickly - I knew that I was supposed to / needed to make use of not only Richard's prayers, but those of Mother Mary on how to phrase things correctly - These are things that are so important in our daily lives - I couldn't have gotten the significance of their words had I not seen and heard it with my own eyes -

Thank you from the very depths of my heart -

Blessings

August 25<sup>th</sup>

Today has been something else, to say the least -

Right now I feel so empowered - I'm sitting on top of the World - There is nothing I can't do - I feel the best that I think I have ever felt - I was feeling good yesterday, but today I feel even better -

Before my doctor took all restrictions off of me, I wasn't to pick up anything heavier than 8oz using my right hand - Well, for one thing, those who know me know that taking off my restrictions means full steam ahead - Even as late as last week I had a difficult time doing most things right handed - I still had to rely on my left hand 80% of the time -

Not today - I cut my grass using both hands on the mower for the very first time and without one bit of discomfort - I can now reach the light switches with my right hand - My neighbour offered to fertilize my lawn for me, seeing as I wasn't able to do it in the spring myself - I loaded 2 bags of black dirt (weighing 50lbs a piece) and 4 bags of organic fertilizer (weighing 30lbs a piece) on to a flatbed at the store - Loaded them into my car and unloaded my car once I got home - In short, I lifted 220lbs, 4 different times - I had a habit of pushing the envelope, without my doctor's knowledge anyway - These things are a benchmark of sorts for me - This is a big part of my life and I need to know that I can take care of myself and be self sufficient to boot - As you can see, I'm on a roll - I have more energy, and get up and go, than I probably had 20 years ago -

I think I'll take the night off -

Then later...

Things are happening so fast, sometimes I just sit in wonderment - I feel like a wild stallion that has been turned loose -

The updates that I have sent are all things that I was unable to do just last week - I'm in total awe right now -  
The solving of my visions is beyond anything that I could have comprehended -

Blessings
